Why is important ISO certification?

- * Participation in public tender organized by state institutions
- * Improving system and process efficiency
- * Being more competitive when tendering for contracts
- * Better business reputation
- * Improve Efficiency, Reduce Waste, and Save Money
- * Increase Customer Satisfaction with your Products/Services

"Our aim is to give you an advantage over your competitors through your ISO training, certification and consistent implementation of management systems best practices."

Quality Management System ISO 9001

ISO 9001 is the internationally recognised standard for Quality Management Systems (QMS). This standard is designed to provide the basis for effective processes and operative people to deliver a successful product or service time after time.

BENEFITS OF ISO 9001

- * *Implement best practices to drive customer satisfaction*
- * *Win more business*
- * *Reduce costs of delivery*
- * *Build a sustainable business*
- * *Work effectively with stakeholders and your supply chain*

ISO 27001 and GDPR

Information Security Management System ISO 27001

This standard provides a framework for Information Security Management Systems (ISMS) that enables the continued accessibility, confidentiality and integrity of information as well as legal compliance. ISO 27001 implementation is an ideal response to customer and legal requirements such as the Data Protection Act and potential security threats including cyber theft and crime.

BENEFITS OF ISO 27001

- * *Secure data in a correct and effective manner*
- * *Increase customer satisfaction*
- * *Improve business continuity*
- * *Improved risk management*
- * *Proven business credentials*
- * *Helps to win more business*

CERTIFIED ENVIRONMENTAL
MANAGEMENT SYSTEM

Environmental Management System ISO 14001

The principal management system standard which specifies the requirements for the formulation and maintenance of an EMS. This helps to control an organizations' environmental aspects, reduce impacts and ensure legal compliance.

BENEFITS OF ISO 14001

- ❖ *Improve environmental management*
- ❖ *Can help you to meet the regulatory challenges of the future*
- ❖ *Reduce operating costs*
- ❖ *Improve stakeholder relationships Improve business credentials*
- ❖ *Can help to win more business*

Occupational Health and Safety Management System ISO 45001

ISO 45001 provides a framework for the effective management of Occupational Health and Safety including all aspects of risk management and legal compliance. It addresses occupational health and safety rather than any specific product safety matters.

BENEFITS OF ISO 45001

- * *Creates a good working condition across your organization*
- * *Identify hazards and put in place controls to manage them*
- * *Reduce workplace accidents and illness to cut related costs and downtime*
- * *Improve business credentials*
- * *Demonstrate compliance to customers and suppliers*
